 dig, *adj.* public, notorious, every-
 where known; —fundigkeit, *f.*
 publicity, notoriousness; —stehend,

Syn. offenberzig, aufrichtig, freimüt(h)ig. The
 Offenberzige says everything that he
 thinks and how he thinks it; the Auf-
 richtig merely says what he is obliged or
 can venture to say, but everything that
 he does say, is in accordance and har-
 mony with his mode of thinking; the
 wise man speaks aufrichtig at all times,
 with tried friends, offenberzig, but as
 often as duty requires it, freimüt(h)ig.

 fest, to make public; 2. to reveal;
 3. to discover, disclose, open (a se-
 cret); sich or sein Herz —, to unbos-
 om one's self.

Syn. offenbaren, bekannt machen, eröffnen,
 anzeigen, entbeden, verrat(h)en. That
 which is bekannt gemacht is brought to
 the knowledge of others; that which is
 angezeigt is intended for the information
 of one or more whom it more particu-
 larly interests or concerns. When we
 inform a person of anything, in which
 we ourselves are interested, with a view
 to influence his will, we eröffnen it to
 him. That which is bekannt gemacht, an-
 gezeigt or eröffnet is not necessarily any-
 thing secret; but whatever is offenbart,
 entbedt or verrat(h)en, has been till then
 a secret. Entbeden can take place in-
 voluntarily, by chance or want of cau-
 tion and is in this distinguished from
 offenbaren. Verrat(h)en borders nearly on
 entbeden, but is distinguished from it
 in this, that verrat(h)en is commonly an
 Entbedung of something which in itself
 is bad and likely to have dangerous con-
 sequences; whereas entbeden may be
 the discovery of an action in itself good
 and allowed, as also of something, the
 making known of which is not injurious
 to the Entbeden.

Syn. Ort, Platz, Stelle, Stätte. Ort indicates a portion of space without any accessory idea; Platz, a place where anything can rest and remain; Stelle, the place which a thing occupies according to a certain order, determined by the relation of other co-existing things. The Stelle of anything is determined by what is near it. They looked for the Stelle where he was murdered, and found that it was a green Platz surrounded by thick bushes. Stätte contains the accessory idea of rest and continuance. It is, therefore, the proper Stelle in which any individual thing always lies. We have here (in this world) no fixed or permanent Stätte.

Syn. Pflicht, Obliegenheit, Schuldgelt. Pflicht indicates every kind of moral necessity, whatever its object may be. A Pflicht becomes, however, a Schuldgelt toward the person we are bound to perform it, and this an Obliegenheit, when that which we are bound to do has been undertaken by ourselves or imposed on us by another. There are Pflichten which no one can require from us; for we have not only Pflichten toward ourselves, but also toward God (which are left to our conscience) and even toward animals. Schuldgelt and Obliegenheit can be required from us by those to whom we are indebted. There are, however, onerous Pflichten also, and these only can be called Obliegenheiten.

Plumps, } bounce.

plump, *adj.* blunt, coarse; heavy, awkward, unwieldy.

Syn. I. plump, schwerfällig, unbehäuflich. Unbehäuflich indicates awkwardness in motion, plump and schwerfällig its causes; the former implying the remote, the latter the proximate and immediate cause. The Plümpe has too great a mass and too rude a form. The galleons of the famous invincible fleet were plump engines and on that account extremely schwerfällig, so that they were too unbehäuflich to escape the skillful maneuvering of the English ships.

Syn. II. plump, bäuerlich, unbehäuflich, grob, dülpiß. The Tölpel displeases by his clumsy motions arising from awkwardness; the Bäuerliche displeases in his language, actions and manners from want of perception of what is becoming; but neither can be said to offend. The Plümpe and Grobe, however, fall in the respect which is due to others; the first merely from want of delicacy of feeling, the latter also from pride and contempt. The Plümpe, Grobe and Unbehäufliche merely omits what good breeding requires; the Grobe is really offensive both in language and actions.

Syn. Brunt, Pracht, Geränge, Pomp, Prachtel. Pomp approaches nearest to Pracht. It is an augmentation of the idea of Pracht, and indicates Pracht suited only for the highest or most distinguished persons, and on the most solemn occasions. Geränge approaches more nearly to Brunt. It signifies, in its origin, a frequent praetor; it is not, however, always without internal worth; only when it is vain and empty it is Brunt. Still lower than Brunt is Prachtel, for this seeks to excite attention and admiration by excellencies which it does not possess or, at least, not in the degree it pretends to.

 ***Syn.** Putz, Schmuck, Zierde, Zierat(h), Verzierang, putzen, schmücken, zieren. Putzen implies properly a lower degree of beautifying; schmücken and zieren, a higher. Peasants putzen their rooms when they sweep and dust them. Schmuck embellishes a thing by splendour and costliness, Zierat(h)en by intrinsic beauty. Putzen, in general, therefore, means to embellish; schmücken, to embellish by splendour and costliness or on solemn festivals; zieren, to embellish by the addition of something in itself beautiful, but the beauty of which consists more in the exquisiteness of the form than in splendour or costliness. Zierde, Zierat(h), Verzierang, imply that with which anything is geziert or embellished; with this difference, however, that Zierde is applied also figuratively (e. g. modesty is the greatest Zierde of youth), and the two others not; while Zierat(h)en are mere trifles with which we seek to embellish anything. It is not every Zierat(h) in a building which is also a Verzierang.

Rech'tfertigung, *f. vid. under compos. of Recht*, *s.*

Syn. Rechtfertigung, Entschuldigung, Schutze. Rechtfertigung, Verantwortung, Schuttschrift. When we try to prove that we have not done something bad of which we are accused, or that what we have done is not bad, we undertake our Rechtfertigung. When, however, we grant that we have done it, and that it is wrong, we can only adduce reasons to diminish our culpability, and these serve as our Entschuldigung. A Schuttschrift can do both. Maternal tenderness excuses a mother's indulgence for the rudeness of her children, but does not rechtfertigen it. When a Schuttschrift contains merely an Entschuldigung, it is still distinguished from the latter by its presupposing an accusation, which Entschuldigung does not. A Rechtfertigung may either take place with arms, where one is forcibly attacked, or it may be only verbal against reproaches or accusations. A Schuttschrift is a written Schuttschrift. Verantwortung differs from Rechtfertigung as relating only to an accusation of unjust actions, and secondly, that we can verantworten only our own actions, but we can rechtfertigen those of another. Verantwortung is distinguished from Schuttschrift in this, that by the latter we also rechtfertigen another against an accusation, but by a Verantwortung only ourselves.

Syn. reden, sprechen, sagen. Sprechen is merely to utter the sounds which the words in any language require; reden, to express by words its sense; sagen relates to what is uttered, whether it be the mere sounds or the subject of discourse. Parrots and some other birds may be said to sprechen; but it would be absurd to say that a parrot had geredet a long time. Sagen is more immediately related with "to tell, to explain," as, tell me (sagen Sie mir) where he lives (not reden Sie, or sprechen Sie mir). It is, however, the same thing whether we say sagen, reden, or sprechen Sie mit nicht davon, do not speak to me about it.

Syn. Ruhe, Raß, Riehe. Ruhe, in general, is that state in which we do not move; Raß, that in which a fatiguing motion ceases. Hence Raß is said only of living beings, for these only feel the fatigue of motion and the want of repose. Ruhe, on the contrary, is used of bodies whether inanimate or living. Raß, moreover, only succeeds to motion in order to continue it. Ruhe can precede all motion and continue forever. We resten only after bodily motion; but there is also an internal Ruhe—that of the soul and mind. That state in which the mind is not agitated by any emotion is called Ruhe; Riehe, when not agitated by unpleasant emotions.

Zusammenkommen is the mere general term, and is distinguished from the others by being used also of two only, whereas the others can only be said of many.

Syn. Šhreibart, Štyl, Diction, Ton. Štyl is applied to a production in any of the fine arts. Šhreibart, Diction, and Ton are applicable merely to rhetorical or poetical works. A royal palace must be built in a grand and majestic Štyl, a summer house in a light and pleasing one. Thoughts and images constitute the Šhreibart (style), sentiments give the Ton (tone). Diction (diction) is only applicable to the Šhreibart of an individual author or work. Whatever practice a man may have in Štyl or Šhreibart, should he be without genius he will never attain the energetic Diction of a Herder or a Swift.

Šhreibe-**n**, *n.* (*h*) writing; letter; Ihr geſchrieb —, your favour.

Syn. Šhreiben, Brief, Šenſchreiben. A written address to one or more indi-

viduals is denoted by the word Brief (letter) only as regards its form, and Šhreiben (writing) with respect to its contents. A Šenſchreiben is a writing which conveys a certain idea of solemnity or importance depending on the rank or dignity of the person to whom it is sent, or on its greater size, as well as on the amplification and elaborateness of the contents. It corresponds, therefore, to our "missive, dispatch, or epistle."

Syn. ſchreien, rufen. He who rufet (calls) does so for the sake of being heard; but one ſchreit (cries out) also without having always such an object in view. This distinction gives rise to others, and thence rufen is effected either by words or articulate and definite sounds, but ſchreien can also consist of mere inarticulate sounds; moreover, ſchreien requires a powerful exertion of the voice.

Moreover, a Buch may consist of several volumes; but that which consists only of a few sheets is called a Šhrit (pamphlet). A Wert has likewise a greater bulk.

Syn. I. **Schuld**, **Ursache**. **Schuld** can only be employed for "cause," when the effect and motive are bad, but **Ursache** (cause) may be used indifferently, whether the effect and motive be good or bad.

Syn. II. **Schuldlos**, **unschuldig**. **Schuld** may be considered in two points of view. It is guilt or a fault, when it conveys the impression of a neglect of moral duty, together with its imputation and harm; when it implies an injury committed or a wrong sustained. This last idea prevails in **unschuldig** (harmless), the first in **schuldlos** (guiltless, faultless); children are said to be **unschuldig** (innocent) because they are incapable of doing anything wicked; when certain pleasures, games, sports, etc., are said to be **unschuldig** (innocent, innocuous), all that is meant to be conveyed is that they are not detrimental; those are **schuldlos** (guiltless, innocent) whose are not opposed to any moral law.

Syn. schwanken, wanken, wackeln, taumeln. Schwanken (the intensive form of wanken) denotes a more violent motion by which a lofty body inclines nearer to the surface of the ground, and threatens to fall, should it be very heavy; towers, for instance, schwanken (rock, reel, waver) from a violent earthquake; wanken denotes a less violent motion, when incipient, and is "to waver;" wackeln expresses the movement of those things which ought to stand firm, but which do not stand sufficiently so. Taumeln is to move backward and forward irregularly as a living being may do; out of wackeln arises the capability of moving from one side to another from a want of firmness. A table wackelt (is rickety or loose), the milk-teeth begin to wackeln (grow loose) as soon as nature intends them to be shed. A man taumelt (staggers or reels) when giddy, when drunk, when only half awake or stupefied.

Syn. Schwere, Gewicht, Wucht; *schw*er, *wich*tig. Schwere and Gewicht are rendered manifest not only by motion, but also by pressure on the body that opposes the central or centripetal force. Wucht is, properly speaking, evident alone by force of momentum. Bodies differing from each other as to Gewicht (weight or specific gravity) fall with equal velocity in a vacuum, and therefore are of the same absolute Schwere (absolute gravity). Hence it appears that Schwere is heaviness or gravity, Gewicht weight, and Wucht ponderousness, ponderance. In a figurative sense, that which is *schwer* (heavy) requires much force or power, and that which is *wichtig* (weighty) produces great effects, is effective. It is eine schwere Frage (a difficult, grave question) what constitution or form of government may be the best, but it is wichtig (important, momentous) that the government be carried on as it ought to be.

Syn. segnen, (einen) einsegnen, (einem) den Segen geben. Segnen (to bless) is principally distinguished from den Segen geben (to give the blessing or benediction) by this, that the former represents also the mere inward wish, while the latter expresses that wish by words or other signs. Thus the priest, at the close of divine service, gibt den Segen (gives the blessing) to his congregation; he gives also the nuptial benediction at the altar, etc. Einsegnen is to consecrate, also to devote by a blessing or by invoking the grace of God (*e. g.* children at confirmation).

Syn. sehen, ansehen, gaffen, angaffen, gucken, schielen, blinzen. The act of directing the eyes to any object is expressed by ansehen (to look at); the ocular perception of that object by sehen (to see). He who wants to sehen (see) anything properly, must ansehen (look at) it, and he who anseht anything within the scope of his vision, supposing his sight to be perfect, will also sehen (see) it. Ansehen without attention is gaffen or angaffen, *i. e.* to gaze or stare stupidly, to gaze at. The Gaffer (gaper, starrer, gazer) has his eyes wide open without seeing distinctly, or without being exactly conscious of what he really is seeing. Angaffen differs from gaffen in implying a definite object, while the latter is to gaze at anything. Gucken expresses a part of the meaning of sehen, *viz.* that part denoting the direction of the eyes to the object, but implies besides the inquisitive approximation of the head toward the same. It is hence "to peep, peer, look inquisitively." Schielen is to squint, and blinzen is to blink, accompanied with winking, *i. e.* "to blink and wink."

**sel'ten*, *adj.* rare, scarce; unfrequent, seldom; extraordinary.

Syn. Selten, *seltsam*, *Selten* is an attribute of anything that is seldom found or possessed; it implies something which always has a certain value derived from the very fact of its being uncommon, and very often it produces admiration, pride or delight; it is, therefore, equivalent to "rare, scarce"; on the other hand *seltsam* is an epithet that conveys the idea of something not only uncommon, but likewise unusual, that differs from what our mind conceives to be true to the laws of nature, of sound reason, of universal custom, thereby exciting always surprise, very often risibility and perhaps contempt; hence it is appositely explained by *strange*, *odd*, or the familiar word *queer*; both words may sometimes be explained by *singular* or *curious*; if it makes us laugh or sneer, *seltsam* often answers to *funny*, *droll*.

seltsam, *adj.* 1. strange, odd, irregular, wonderful; 2 + rare; *es sieht* — *aus*, it affords a strange sight. it looks odd.

Syn. Seltsam, *unglaublich*, *wunderlich*, *wunderbar*, *wunderbarlich*. All these words, with the exception of *unglaublich*, have reference to the idea or subject itself; *unglaublich* (incredible) expresses an opinion or judgment upon the possibility or reality of the said object, etc. *Wunderlich* (*queer*) refers merely to every action proceeding from our will or fancy, to every idea, etc., that is repugnant to stern reason or sober judgment; it is, therefore, either singular, eccentric, or whimsical. A capricious or fanciful man is *wunderlich* (singular, odd, whimsical), his actions are *wunderlich* (surprising, extraordinary), his ideas are *wunderlich* (eccentric, strange, fantastic). *Wunderbar* is wondrous, and *wunderbar* is wonderful. *Seltsam* is that which from being unusual or eccentric appears generally to be wrong or improper; it is, therefore, *strange*, *odd*, *queer*, *singular*, *curious*. *Vid. also selten*.

Syn. 'Spalten, trennen. In the first place, one spaltet (cleaves, splits, rends asunder) only solid and tough or stiff bodies; one trennt (separates or parts) fluids, and amongst the solids such as are easily divisible. The seas on our globe are getrennt (separated) by the mainland, but not gespalten; a great and continued heat on the other hand often spaltet (cracks or chaps) the ground. Then again, one spaltet (splits) that which was intimately connected and bound together; one trennt (separates) that which, without being intimately connected, was considered as one whole the parts of which, after the separation, begin to exist as independent wholes.

Syn. Spaltung, Trennung, Zersplitterung. Disagreements amongst the members of a society are only mere Spaltungen (splits, divisions, differences, disunion, schism), so long as these members do not secede and set up a separate society of their own; the moment this takes place, a complete Trennung (separation) follows. Even among the very early Christians there were several Spaltungen (differences), but those Spaltungen were no Trennungen, since they still formed one congregation or church as before, and did not give rise to a sect. When the Spaltung (breach of concord or unanimity) is accompanied with ill-will and hostile demonstrations, so as to lead to a breach of the previous good order, it is then a Zersplitterung (an open rupture).

Syn. Spotten (über einen), aufziehen (einen), aufhalten (sich über einen), lachen (einen). Spotten und sich aufhalten differ in the first place from aufziehen in this, that one only aufzieht (quizzes, banters, rallies) persons, but one spottet (mocks, derides) and sich aufhält (censures) also über things, actions and opinions; moreover, that when it concerns individuals, a man may spotten über (ridicule) them and sich aufhalten (animadvert) upon others even in thought, but one can only aufziehen (banter) them when they are present. Spotten und aufziehen differ again from sich aufhalten in this, that the two former consider the object as ridiculous, while the latter seriously expresses blame or censure.

stäm'meln, *v. a. and n. (h.)* to stammer, stutter, hammer in speaking; to lisp; *fig.* to falter, pronounce, express in a faltering voice.

Syn. Stammel'n, stottern, fallen. Stottern implies an interruption or break, and then a repetition of words or syllables accompanied by a painful feeling of exertion on the part of the person so speaking. It arises either from a natural defect or from an unfortunate habit. It is, therefore, identical with our "to stutter." Stammel'n and fallen merely imply an imperfect utterance without the accompanying defects of stottern. The children fallen or stammel'n, when their tongue, as yet imperfectly trained, utters words only partially or incorrectly; stammel'n is, therefore, almost the same as our "to stammer." fallen is the stronger word of the two, expressing the higher degree. Hence it is sometimes equivalent to our "to mutter;" in choice or poetical language it may be rendered by "to lisp."

Syn. Stellung, Stand. Stand is merely the place where the body appears to rest; Stellung indicates as well the relation of its height and the plane on which it reposes to the whole surface of the earth, as likewise that of its sides to those things which are contiguous. The vertical Stand is the most advantageous and also the most graceful Stellung for a tree, column or tower. Hence Stellung is "situation, posture or attitude," and Stand "position."

Syn. Steuern, wehren (einer Sache). The former, originally equivalent to *richtigen*, alludes more to the right of setting certain limits to a thing or person, the latter more to the means adopted for checking an evil. Syn. I. **Stod**, **Stab**, **Steden**. The two former correspond to the English "stick, staff," *vid.* **Sirtenstab**, **Zauberstab**, **Wanderstab**, **Bettelstab** u. *l. w.* Hence **Stab** is the more elegant word of the two, and in poetry is often rendered by "wand." **Steden** is a small or thin **Stod**, and is also a lower expression, **Stod** being the usual term for a walking-stick; **Steden** is, therefore, the English "rod" or "switch."

Syn. II. **Stod**, **Staud**, **Strauch**, **Busch**. The **Staud**, the **Strauch**, and the **Busch** are woody or ligneous, and send forth several stems from one common root; the **Strauch**, however, differs from the **Staud** in this, that its numerous little stems are so twisted and distorted that they appear entangled, and the eye is baffled when attempting to trace them out individually. **Strauch** is, therefore, the frutex or real shrub, while **Staud** is more the scrub or low dwarf-tree. A wide-spreading **Strauch**, when it consists of numerous little stems, all of them proceeding from one root, growing in a tangle or maze and having a great quantity of leaves, is called a **Busch** (bush). Some Strafen may be Züchtigungen at the same time. They are Strafen, as the deserved and proportionate consequences of a crime; they are Züchtigungen as a means of improvement. The Todesstrafe (capital punishment) can for this reason be no Züchtigung, for in this life no reformation can be effected by it.

Syn. Stube, Kammer, Zimmer, Gemach, Saal, Stur.

Stuben are those parts of the house which are usually and mostly occupied, and in northern climates containing each a stove or fireplace for warming the apartment in cold weather.

A Kammer is not usually used as a sitting-room, and is therefore not generally furnished with a stove, *vid.* Schlafkammer, Speisekammer. In superior dwelling-houses those handsome and convenient rooms which are fitted up for one's usual occupation are called Zimmer, and in a higher style Gemach; *vid.* Schlafgemach. A Saal is a spacious and wide Zimmer, only intended for company. Stur is that space which is at the entrance of a house, between the Zimmer, and is also sometimes called the Vorstall. Hence Stube is a sitting-room or parlour, Kammer, chamber, Zimmer, room, Gemach, apartment, Saal, drawing-room, and Stur the anteroom, when not on the ground-floor, for then it is the hall.

Syn. Stumm, sprachlos. Stumm (dumb) is that which utters no sound; sprachlos (speechless) merely that which cannot speak (as sometimes man). Therefore all animals should not be said to be naturally stumm, but sprachlos. For some, such as different birds of song, utter many varied sounds or notes, and they only verstümmen (are or become dumb) under peculiar circumstances. Syn. **Tadel**, Mißfallen, Mißbilligung. Mißfallen (dislike or displeasure) is the reverse of Gefallen, and consists, in the first place, of a mere feeling for which we often can neither account to ourselves nor assign the reason to others; that which we tadeln (blame or censure) and mißbilligen (disapprove), implies faults of which we are clearly conscious and which we can show or, at all events, think we can. Mißfallen can be limited to the mere feeling and be kept confined in one's own mind but when a person tadeln and mißbilligt, he lets his opinion be known either with intelligible signs or more generally with words. Lastly, irrational and even inanimate things and their effects may also mißfallen (displease) us, but we tadeln and mißbilligen only for actions and their effects.

Syn. **Zeichen**, **Stück**, **Anteil**. A **Zeichen** is a constituent "part" of a whole and similar to it; a **Stück** (piece) is one single thing belonging to a certain higher thing. **Anteil** is that part or piece of anything, over which somebody possesses a right or on which a right is assured him (portion, share).

Syn. **teilen**, **entteilen**, **abtteilen**, **zertheilen**. **teilen** is generally to separate a whole into parts. **entteilen** (to dispose, etc.) denotes that one separates the greater whole into smaller parts of a definite regular number, or a thing of higher rank into parts of inferior rank. This may be done by the mind merely; if this separation is also made evident to the senses by outward signs, it then becomes **abtteilen** (to part off, to divide, etc.). **zertheilen** (to part asunder, to disconnect, dis sever) is separating the constituent parts of a whole in such a manner that they exist as independent wholes for themselves.

Syn. **Th(ier)**, *Beih.* The term *Beih.* is limited to domestic animals. It is, however, far more comprehensive than the English "cattle," which merely implies oxen and cows; *vid.* *Federbeih.*, *Bügelbeih.*, *Malbeih.*, *Eckelbeih.*, *Windbeih.* u.s.m. The ant is considered an industrious *Th(ier)* and the bee a prudent *Th(ier)*. Hence the term "animal" is not the full equivalent for *Th(ier)*; for, although all living things are animals, the word cannot be used in common life for an insect, a bird, or a fish, etc., but these words must be substituted for the German *Th(ier)* as the context may require.

Syn. **Th(ier)isch**, *beihisch*, *brutal*. **Th(ier)isch** in man is every thing that he has in common with other animals. This is not opposed to the prerogatives of his reasoning nature, and does not exclude them. That which is opposed to them, is *beihisch*. Every gratification of sensuality has something *t(ier)isch* (of the animal) in it, but that indulgence which by its violation of nature's laws or by its extreme excess degrades man from the rank obtained by his reason, is *beihisch* (brutal, bestial). Brutal is an epithet of the coarsest sensuality.

Syn. Thräne, Zähre. Thräne denotes every trickling drop; Zähre only that one which flows from the source of pain. Zähre has therefore invariably a moral sense, Thräne may have likewise a purely physical one. Moreover, Zähre flows only from motives of benevolence. Thräne is also the expression of pain at pain felt by one's self. "Tear" is the only word in English.

thränen, *v. n. (h.)* to run with tears; to weep; der Weinflut thränt, the vine bleeds.

Syn. Thränen, weinen. Thränen is, in the first place, used only in speaking of the eye, from which drops flow. Weinen is also used of the person, who sheds the tears. Hence weinen is an effect and expression of mental pain, whilst the Thränen of the eyes may proceed from any cause whatever, e.g. from smoke, cold, a cold, etc. Hence thränen may be given by "to cry," weinen by "to weep."

tilgen, *v. a.* 1. to blot out; 2. to eradicate, efface, extinguish; 3. to pay, annul; **eine Schuld** —, to pay, discharge, cancel a debt.
Syn. **Tilgen**, **vertilgen**, **zerstören**, **ausrotten**, **vernichten**. **Ausrotten** corresponds exactly to the English, "to root out, extirpate, eradicate," and **vernichten** is "to annihilate." We **tilgen** something that is disagreeable, disadvantageous, etc., to us, e. g. weeds, vermin, debts; and do so by extirpating (**ausrotten**) the first, and figuratively speaking, the second, the last by paying it. The English for this is "to get rid of." **Vertilgen** always implies violent measures; it is "to exterminate." Hence we may say, **vertilgen** weeds, vermin, but not debts. A person **zerstört** merely those things, which are composed of component parts, by disturbing their state of rest, by strewing them asunder, etc. Time **zerstört** everything, but it does not **vernichten**. The use of the latter, unless it is applied to God, is always figurative or hyperbolic.
